Segment Information

1. Overview of Reporting Segments

The Company's reporting segments are those of the Company's constituent units for which segregated financial information is available and is subject to periodic review by the Board of Directors in order to determine the allocation of management resources and evaluate performance.

The Company has established business divisions for each product and service at the head office, and each business division formulates a comprehensive strategy for the products and services it handles and develops business activities.

Accordingly, the Company is comprised of product and service segments based on business divisions, with two reporting segments: the Agricultural Machinery Business and the Bearing Business.

The Agricultural Machinery segment manufactures and sells agricultural machinery. In the bearing business, we process large bearings.

2. Method of calculating the amount of sales, profits or losses, assets, liabilities and other items for each reporting segment

The method of accounting for the reported business segments is substantially identical to that described in the Important Accounting Policy. In addition, the profit of the reporting segment is based on operating income.

3. Information on the amount of sales, profits or losses, assets and other items for each reporting segment
